Exhibitors' testimonials

"Most of our products are fabrics produced in Japan, and we have also brought our spring and summer collections to this fair. Since we have an office in Shenzhen and many of our apparel industry clients are from South China as well, we decided to exhibit at Intertextile Shenzhen to look for new customers in the Greater Bay Area, and increase our brand exposure. Today we have connected with many Chinese buyers, and visitors from Europe and the US have also come to our booth to learn about our products."

Mr Tomokazu Matsuda, KITATI Co Ltd (Japan Zone)

"Our buttons are made with very unique materials – palm tree seeds which can be found in Ecuador, that are durable and eco-friendly. We have received very positive feedback at Intertextile Shenzhen. With the help of the fair, I hope more and more players in the fashion industry will choose to use sustainable materials in the future."

Mr Wilson Chiu, Managing Director, Yee Fung Hong Ltd (PRO ECUADOR co-exhibitor)
